GLYCOCARN[®] USP

Glycine Propionyl-L-Carnitine Hydrochloride, USP (GPLC)
USA Production Patent #6703042 • Worldwide Production Patent #EP1202956

Patented ingredient backed by scientifically proven results. Supports athletic performance, increased cellular energy, weight management support, enhanced endurance and recovery via increased nitric oxide retention.

#00916 #00923

- Optimized Carnitine with GlycoCarn[®] and ArginoCarn[®] combines three advanced forms of carnitine in one single formula to help transport fatty acids right to the heart of your energy-producing mitochondria.
- PEAK ATP[®] with GlycoCarn[®] provides two critical nutrients that augments endothelial nitric oxide synthesis, enhancing blood flow to active tissues.

ArginoCARN[®] USP

Acetyl-L-Carnitine Arginate Dihydrochloride, USP
USA Production Patent #6703042 • Worldwide Production Patent #EP1202956

Patented ingredient that helps boost mitochondrial energy production and promotes targeted benefits for the brain, heart and central nervous system. Supports neurite regeneration.

- Mitochondrial Energy Optimizer is designed to counteract age-related structural and functional changes and helps protect delicate cellular structures which enables cells to perform life-sustaining metabolic processes.
- Acetyl-L-Carnitine Arginate helps maintain cellular energy metabolism by assisting in the transport of fat through the cell membrane and into the mitochondria within the cell, where fats are oxidized to produce the cellular energy ATP.
